

## U.P. Contractor Wins 2008 Build Michigan Award

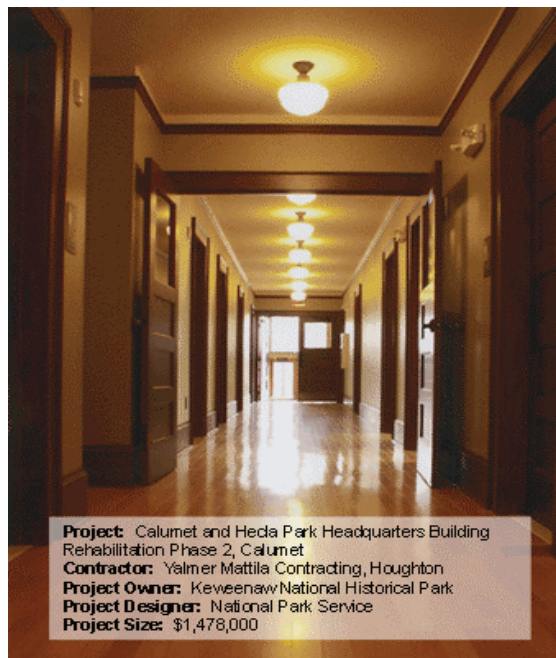

The AGC of Michigan announced the 2008 Build Michigan Awards, recognizing excellence in commercial construction throughout the state. Yalmer Mattila Contracting of Houghton was one of just seven projects and construction teams to be recognized during the AGC of Michigan's Annual Meeting held January 29, 2009 in Grand Rapids.

"The Build Michigan Awards represent some of the most outstanding commercial construction projects completed in our state in any given year," said Stan Buell, AGC Chairman. "These projects contribute to our quality of life whether they are schools for our children, office buildings for our businesses, or hospitals for our citizens."

Yalmer Mattila won for their work on the phase 2 rehabilitation project for Keweenaw National Historic Park's Calumet and Heda Park Headquarters Building in Calumet. The total project cost was \$1,478,000.

The awards recognize new construction and renovation projects in building construction (\$5 million or less), building construction (over \$5 million), federal & heavy, environmental, construction management, and design-build. Awards also are considered for first time entries. Projects are judged on: meeting the challenge of a difficult job, excellence in project management, innovation in construction techniques, sensitivity to the environment, responsiveness to client needs, and the contractor's contribution to the community
